Shak

And he's different from those idiots who mistake a flashy appearance for fashion these days
Niina Michi sato is
quietly special
Among the students, he's just somewhere above average, although he gets along with those among the top ranks.

His face doesn't stand out, but his features are nicely arranged
His clothing and hairstyle give off a clean hygienic feeling.

AND YET
He's a smar kid who understands everything
First class, high quality
Good-mannered,
He's decent at studying.
